Executive Security Report

Executive Summary

Total vulnerabilities: 0

Highrisk issues: 0; no material businessimpacting security findings were identified in the scanned code

Overall risk level: Low

Technical Details

Finding 1 No security issues detected by static analysis

Severity: Low

AI Explanation: Bandit and Sonar did not report any vulnerabilities in the scanned project files, indicating no obvious insecure code patterns were found in this sample.

Fix Suggestion: Continue secure coding practices and keep scanning as the codebase grows, especially after new dependencies or major code changes.

Tool outcomes (Bandit, Sonar, Safety, ZAP):

Bandit: Succeeded; no findings returned.

Sonar: Succeeded; no issues returned.

Safety: Failed; no requirements.txt found in the project, so dependency scanning could not be performed.

ZAP: Not run; no URL target was provided.

Tool Failures

Safety could not run because the project did not include a requirements.txt file.
