Executive Security Report

Executive Summary

Total vulnerabilities: 0

Highrisk issues: 0 and no evidence of immediate businessimpacting security flaws in the scanned code

Overall risk level: Low

Technical Details

Finding 1 No actionable security findings detected

Severity: Low

AI Explanation: The static scans did not identify any codelevel security issues in the provided project path.

Fix Suggestion: Continue with secure coding practices and add automated security checks to the CI pipeline for ongoing monitoring.

Tool outcomes (Bandit, Sonar, Safety, ZAP):

Bandit: Succeeded — scanned /workspace/uploads/d0f4f719b1e9 and found no issues.

Sonar: Succeeded — returned 0 issues.

Safety: Failed — no requirements.txt found in the project, so dependency scanning could not run.

ZAP: Not run — no URL target was provided.

Tool Failures

Safety could not execute because the project does not include a requirements.txt file.
